1.8	17.12.2014	▪ Update on the countries associated with H2020: Faroe Islands

## Associated Countries

Association to Horizon 2020 is governed by Article 7 of the Horizon 2020 Regulation. Legal entities from Associated Countries can participate under the same conditions as legal entities from the Member States. Association to Horizon 2020 takes place through the conclusion of an International Agreement.

By 17 December 2014, Association Agreements have been concluded and/or signed with the following countries:

- **Iceland**
- **Norway**
- **Albania**
- **Bosnia and Herzegovina**
- **the former Yugoslav Republic of Macedonia**
- **Montenegro**
- **Serbia**
- **Turkey**
- **Israel**
- **Moldova**
- **Switzerland**
- **Faroe Islands**

All the above Association Agreements apply retroactively **from 1 January 2014** (i.e. from the beginning of Horizon 2020) except for the Agreement with Switzerland, which is retroactively applicable as of **15 September 2014**.

An international agreement associating Switzerland **to parts of Horizon 2020** was signed on 5 December 2014. The parts to which Switzerland is associated are: the "Excellent Science" pillar, containing the European Research Council, Future and Emerging Technologies, Research Infrastructures and the Marie Skłodowska-Curie actions; the actions under the specific objective "Spreading excellence and widening participation"; and finally the Euratom Programme and the activities carried out by the European Joint Undertaking for ITER and the Development of Fusion for Energy for 2014-2020. The participation of Switzerland to these parts of Horizon 2020 and to Euratom Programme and to ITER as an Associated Country applies provisionally from 15 September 2014 and is expected to last until 31 December 2016 (this would be then followed by either full association or no association, i.e. third country status). Swiss entities may participate with a status of third country entities in other Horizon 2020 priorities that are not listed above. For more information, please see the information note on [http://ec.europa.eu/research/participants/data/ref/h2020/other/hi/h2020-hi-swiss-part\\_en.pdf](http://ec.europa.eu/research/participants/data/ref/h2020/other/hi/h2020-hi-swiss-part_en.pdf)

Note that, unlike in FP7, **Liechtenstein** does not intend to associate to Horizon 2020.
